

## IP Address Justification Form

American Internet Services is committed to complying fully with all requirements set forth by the American Registry for Internet Numbers (ARIN) in regard to IP address allocations. As such, it is American Internet Service's policy to consider the requirements of each customer individually when allocating IP space, and there is no default allocation with any of our service packages. If you require more than a /29 (8 IP's – 5 of which are usable by the customer), then you will need to complete the form below.

Per ARIN's guidelines, organizations are assigned address space based on immediate utilization plus 6 month projected utilization. Organizations must exhibit a high confidence level in your 6-month utilization rate and supply documentation to justify the level of confidence.

Please complete this form and submit it to American Internet Services via e-mail to your sales representative. If you have any questions about filling out the form, please contact your salesperson and or our customer service department.

Please use the following format to list devices to IP's as much as possible:

- FTP (2)
- VPN (2)
- Routers (4)
- PIX (2)
- Video Conferencing (2)
- Intrusion Prevention (2)
- CISCO Works (2)
- Access control server (2)
- Certificate Authority (2)
- Blackberry (2)
- SSH management (4)
- Web servers (2)
- Mail (4)
- DMZ (3)
- FTP servers (4)
- SMTP /Web filtering Appliances (2)

Please number in ( ) correlate to single device using one IP. If device has multiple IP's based upon ssl or such, please note that accordingly.

Organization Name:	
Postal Address of Organization:	
Technical Point of Contact (ARIN Handle if known):	
Name (Last, First):	
Title:	
Phone Number:	
E-mail address:	
Domain Name:	
Previously assigned IP's?	
If Yes, then who assigned them?	
Please explain how previous IP space has been utilized. (Include the number of hosts and subnets)	
Number of Hosts required Initially:	
Number of hosts required (next 6 mos):	
Number of subnets required initially:	
Number of subnets required (next 6 mos):	
Number of addresses requested:	

Please explain why you need the number of IP's you have requested.

*Please note that equipment behind firewalls does not necessarily require globally unique IP addresses. Other examples of items that are not justifiable for static IP allocation purposes are: Items behind firewalls or load balancers, HTTP 1.0 servers regardless of use, PC Anywhere and other desktop viewing applications (Use of VPN technology is required for these applications)*

Please complete a network map to show how you are using any existing IP assignments and your predicted future growth of your network.

Subnet	Subnet Mask	# Hosts (current)	# Hosts (6 mo)	# Hosts (1yr)	Description
<b>Totals</b>					

I verify that I am authorized to represent the organization below and that the above information is true and correct. I understand that Internet Protocol address space is a limited resource, and that misrepresentation of my usage can result in revocation of any assigned space. I also understand that the Internet Protocol addresses that are assigned to me are non-portable, and that assignment of this Internet Protocol space by American Internet Services does not constitute ownership of this Internet Protocol address space.
